Kopergaon, Maharashtra

Professional Summary

B.Tech AI & Data Science undergraduate, IEEE-published researcher, and hands-on builder. Turns real operational problems into production web apps, Android products, offline ML tools, and agentic systems—from multi-tenant workforce platforms to plant-disease detection and field attendance.

Education

B.Tech — Artificial Intelligence & Data Science

2024 – 2028

Sanjivani University, Kopergaon

Senior Secondary (XII) — Science (MSBSHSE)

2024

K. B. Rohmare Jr. College, Kopergaon 63%

Secondary (X) — MSBSHSE

2022

Shri Sharda English Medium School, Kopergaon 91.40%

Research Publication

Optimized Feature Selection and Machine Learning Techniques for Early Detection of Chronic Kidney Disease

Jay Nilesh Jobanputra, K. Vengatesan, V.D. Ambeth Kumar et al. — IEEE GITCON 2025 · DOI: [10.1109/GITCON65266.2025.11377145](#)

- **Problem:** Late CKD detection from sparse clinical signals. **Solution:** RFE + Mutual Information pipeline on 400 records / 26 features; benchmarked 7+ models (RF, XGBoost, SVM); IEEE Xplore / Scholar indexed.

Freelance & Client Work

Kalpanik Task Manager — Web PWA & Android

Jun 2026 – Present

Vite, Bootstrap, Node.js, Express, Prisma, MySQL, Java (Android)

- **Problem:** Field work lived in chats/spreadsheets—lost tasks, weak proof, no live attendance, and every company needed isolated data. **Solution:** Multi-tenant web + Android (*Kalpanik Reminder*) with lists, mixed proof, SSE chat, GPS/geofenced check-in, owner review, FCM, and per-customer DB/uploads.

Kailash Masale — Ops Dashboard & Field App

Sep 2025 – Jan 2026

React, Vite, Firebase, Java (Android)

- **Problem:** Managers could not see live check-ins, orders, or targets; assigning field work meant chasing people on calls. **Solution:** React ops dashboard + Android field app on one Firebase project—attendance, orders, leaves, TA/DA, tasks; Firestore sync + FCM when work is assigned.

AromaWrap — E-Commerce

Sep 2025 – Dec 2025

React, TypeScript, Express, Prisma, MySQL

- **Problem:** Fragrance brand needed a real store (not a static catalog) with Indian UPI-friendly checkout and packaging QR product links. **Solution:** Live storefront ([aromawrap.co.in](#)) with catalog, cart/wishlist, COD + UPI QR, admin payment verification, reviews, and inventory.

Election Survey System

Nov 2025

Java (Android), Node.js, Express, MySQL

- **Problem:** Paper/offline survey collection was slow, error-prone, and hard to aggregate by area/ward. **Solution:** Android field app + Express/MySQL API for login, area selection, dynamic questions, and batch response upload.

Selected Projects

PlantDiseaseAI

2025 – 2026

Python, PyTorch, PySide6, ONNX, Android

- **Problem:** Farmers need fast leaf-disease ID without reliable internet, plus visual trust and local-language advice. **Solution:** Offline EfficientNet-B0 for Grape/Tomato with Grad-CAM, EN/HI/MR tips (optional Groq), Windows .exe/Pi desktop, and Android ONNX — [Plant.DiseaseAI](#).

Attendify — Smart Attendance

May 2025

Android · Firebase, ML Kit, CameraX, ZXing

- **Problem:** Buddy punching, remote punches, and weak audit trails broke simple attendance apps. **Solution:** Check-in only after auth, office assignment, GPS geofence, then face (ML Kit) or time-limited QR; admin reports + EN/HI/MR.

Kalpanik Operations AI

Jan 2026

Hackathon · Node.js, Express, Python, scikit-learn

- **Problem:** MSMEs juggle shop/WhatsApp orders, stock, and staff with no single ops loop. **Solution:** Multi-agent pipeline for order intake, inventory reservation, workforce tasks, and ML delay-risk labels (optional Groq parsing).

Smart Trip Planner India

2025

HTML, Tailwind, JS · Google Places, OpenWeatherMap

- **Problem:** India trip planning meant juggling hotels, weather, maps, and generic blogs. **Solution:** Personalized itineraries with live Places + weather, traffic/budget controls — [smart-tripplanner.netlify.app](#).

Technical Skills

Languages	Python, Java (Android), JS/TS, SQL, C++, HTML/CSS
AI / ML	PyTorch, EfficientNet, Grad-CAM, ONNX, Scikit-learn, TensorFlow, Keras, XGBoost, ML Kit, Pandas
Web & Mobile	React, Vite, Node.js, Express, Android, REST APIs, Bootstrap, Tailwind
Data & Cloud	Firebase, MySQL, Prisma, MongoDB, SQLite · Agentic: multi-agent pipelines, Groq (optional)
Tools	Git, Android Studio, PyInstaller, nginx/PM2, Netlify, Insomnia, Cursor, Agile

Certifications & Languages

Infosys Springboard Python (Nov 2024) · IIT Bombay E-Cell Illuminate (Jan 2025) · IBM Data Visualisation (Apr 2025) · IBM BI (Apr 2026) · IBM DevOps/Agile/DT (Apr 2026) · English · Hindi · Marathi · Gujarati

Leadership & Achievements

- **Best Project Award** — Finessefleet Foundation × Sanjivani University for *Smart Attendance Management Using QR Code*
