Kopargaon, Maharashtra

Professional Summary

B.Tech AI & Data Science undergraduate, IEEE-published researcher, and hands-on builder. Ships production web apps, native Android products, Flutter apps, and agentic AI prototypes for real businesses—from multi-tenant workforce tools to e-commerce and field attendance systems.

Education

B.Tech — Artificial Intelligence & Data Science

2024 – 2028

Sanjivani University, Kopargaon

Senior Secondary (XII) — Science (MSBSHSE)

2024

K. B. Rohmare Jr. College, Kopargaon 63%

Secondary (X) — MSBSHSE

2022

Shri Sharda English Medium School, Kopargaon 91.40%

Research Publication

Optimized Feature Selection and Machine Learning Techniques for Early Detection of Chronic Kidney Disease

Jay Nilesh Jobanputra, K. Vengatesan, V.D. Ambeth Kumar et al. — IEEE GITCON 2025, Belagavi, India.

IEEE Xplore · Google Scholar · DOI: [10.1109/GITCON65266.2025.11377145](https://doi.org/10.1109/GITCON65266.2025.11377145)

- Built an ML pipeline for early CKD detection using RFE and Mutual Information Gain on 400 patient records (26 clinical features).
- Benchmarked 7+ models (Random Forest, XGBoost, SVM, Naive Bayes, ensembles) with strong cross-validation results.
- Presented as a first-year undergraduate; paper indexed in IEEE Xplore and Google Scholar.

Freelance & Client Work

Kalpanik Task Manager — Web PWA & Android

Jun 2026 – Present

Vite, Bootstrap, Node.js, Express, Prisma, MySQL, Java (Android)

- Designed a multi-tenant workforce platform (web + Android *Kalpanik Reminder*) for owners, admins, and field staff: task lists, mixed proof uploads, team chat (SSE), live GPS attendance, geofenced check-in, deadline extensions, and owner review.
- One codebase powers isolated customer instances (domain, MySQL, uploads, trial); Android uses the same session API with FCM reminders and overdue gates.

Kailash Masale — Ops Dashboard & Field App

Sep 2025 – Jan 2026

React, Vite, Firebase, Java (Android)

- Built a React admin console for attendance, orders, targets, leaves, TA/DA, and task assignment with a Java Android field app on one Firebase project.
- Real-time Firestore sync; Cloud Function notifies employees over FCM when tasks are assigned or updated.

AromaWrap — E-Commerce

Sep 2025 – Dec 2025

React, TypeScript, Express, Prisma, MySQL

- Shipped a live incense storefront: catalog, search, packaging QR slug URLs, cart and wishlist, COD + UPI QR checkout with admin payment verification, and reviews.
- Live: aromawrap.co.in. Admin CRUD, inventory, and multi-image uploads to server disk.

Election Survey System

Nov 2025

Java (Android), Node.js, Express, MySQL

- Delivered a field survey stack: Android (Material Design 3) + Express REST API + MySQL for login, area/ward selection, dynamic questions (text / single / multi), and batch response submission.

Selected Projects

Kalpanik Operations AI

Jan 2026

Hackathon · Node.js, Express, Python, scikit-learn

- Multi-agent MSME ops pipeline: shop + WhatsApp order intake, inventory reservation, workforce tasks, and ML delay-risk labels (logistic regression).
- Optional Groq LLM parsing for natural-language WhatsApp orders; in-memory ops state for fast demo loops.

- Defense-in-depth check-in/out: auth + role, assigned office, GPS geofence, then face verification (ML Kit) or time-limited QR.
- Admin tools for users, offices, QR, late flags, history, and CSV email reports; UI in English, Hindi, and Marathi.

Smart Trip Planner India

HTML, Tailwind, JavaScript · Google Places, OpenWeatherMap

2025

- Personalized India itineraries with live hotels, restaurants, attractions, weather, optional traffic analysis, and budget sliders.
- Live: [smart-tripplanner.netlify.app](#). Core planner uses APIs + rule-based logic (not a third-party LLM).

Remind Me

Flutter · Contacts, Local Notifications, WhatsApp Share

2025 – 2026

- On-device birthday/anniversary reminders from contacts with full-screen daily alarms, wish tracking, greeting cards, and WhatsApp share.
- Built for family milestones and business owners who want to wish clients on time—no server or cloud accounts.

Technical Skills

Languages	Python, Java (Android), Dart (Flutter), JavaScript, TypeScript, SQL, C++, HTML/CSS
AI / ML	Scikit-learn, TensorFlow, Keras, XGBoost, Random Forest, RFE, Google ML Kit, Pandas, NumPy
Web & Mobile	React, Vite, Node.js, Express, Flutter, Android (Java), REST APIs, Bootstrap, Tailwind
Agentic / LLM	Multi-agent pipelines, Groq / LLM text parsing (optional)
Data & Cloud	Firebase (Auth, Firestore, Storage, FCM, Functions), MySQL, Prisma, MongoDB, SQLite
Tools	Git & GitHub, Android Studio, nginx/PM2, Netlify, Insomnia, Cursor, Agile

Certifications

• Basics of Python — Infosys Springboard	Nov 2024
• Illuminate Entrepreneurship Bootcamp — E-Cell, IIT Bombay	Jan 2025
• Data Visualisation — IBM Career Education Program	Apr 2025
• Business Intelligence — IBM Career Education Program	Apr 2026
• DevOps, Agile & Design Thinking — IBM Career Education Program	Apr 2026

Leadership & Achievements

- **President, Sanjivani E-Cell** — organized startup events; connected 100+ students with mentors and investors.
- **President, IIC, Sanjivani University** — incubation activities; mentored innovators from idea to prototype.
- **Campus Ambassador** — E-Cell, IIT Bombay (Upstox × EducationVibes), Jun 2025.
- **Top 20** — National Entrepreneurship Challenge (NEC), IIT Bombay (1000+ teams).
- **Winner** — Eureka Startup Pitching & Web Development Competition, Sanjivani University.
- **Special Appreciation** — Industry Hackathon, Sanjivani University.
